Employee Handbook

Day 8 RAG practice document

1. Working Hours

The normal working week is Monday through Friday. Teams may define local collaboration hours, but employees should coordinate schedule changes with their manager.

2. Leave

Employees receive 18 days of annual paid leave. Leave should be requested through the HR portal and approved by the manager before travel is booked. Sick leave should be reported as soon as practical.

3. Remote Work

Employees may work remotely up to two days per week, subject to team requirements. Company devices must use approved security controls when connecting from outside the office.

4. Information Security

Employees must use multi-factor authentication, lock unattended devices, and store company documents only in approved systems. Suspected security incidents must be reported to the security team immediately.

5. Expenses

Business expenses require itemized receipts. Claims should be submitted within 30 days. Expenses above the team approval threshold require written manager approval.
